Horseback riding is dangerous and horses are unpredictable.
Inherent Risks:

- (A) The propensity of a horse to behave in ways that may result in injury, harm, or death to persons on or around them;
- (B) The unpredictability of an equine's reaction to such things as sounds, sudden movements, and unfamiliar objects, persons, or other animals;
- (C) Certain hazards such as surface or subsurface conditions;
- (D) Collisions with other equines or objects; and
- (E) The potential of a participant to act in a negligent manner that may contribute to injury to the participant or others, such as failing to maintain control over the animal or not acting within the participant's ability.
